Food Fairness Illawarra

A community based alliance promoting healthy food for all

Food Fairness Illawarra is a voluntary community based working group that is committed to finding community based solutions which ensure that everyone in our community has access to healthy food.

Food access for all means not having to worry about whether we have enough to eat, being able to eat food from our own culture, being able to afford safe and healthy food, not causing damage to the environment by our food production, protecting the livelihood of people who grow and produce our own food and celebrating our culture or community with food.

Membership is free and open. If you are interested in joining this growing circle of people and organisations committed to finding solutions to food insecurity in our community contact Healthy Cities Illawarra on 4226 5000
